Front End Web Developer

Profile

I am a former educator and a recent grad from the Bitmaker Labs' demanding 9-week web development boot camp. In addition to HTML and CSS, I have added Ruby on Rails, and more advanced Javascript to my skill set. I am an enthusiastic coder with a knack for problem solving and an acumen to integrate the technical and design aspects of web development.

Skills

Education

- Bitmaker Labs - Nine week immersive web course, January 2015 to April 2015
- Canisius College - Masters in Childhood Education, August 2009 to May 2010
- York University - Bachelor of Science, September 1995 - April 1998

Experience

Web Development Internship, THE APPLABB - 2015 to present

- Used WordPress to update client websites as part of a team, based on specifications listed on Basecamp.
- Worked independently to solve issues with mobile responsiveness.
- Participated in Quality Assurance process by reviewing the client website, and compiling a list of issues that need to be addressed prior to deployment.

Substitute Teacher, LEO BAECK DAY SCHOOL – 2012 to 2015

- Taught more than 1,000 students over the span of 4 years, adapting to a variety of age levels and curriculum as needed.
- Wrote daily reports to the classroom teacher to update them about student progress and student behaviour.
- Worked with English as a Second Language and Special Needs students, adapting lessons and expectations to suit their unique needs.
